## SUMMARY

Information Technology graduate with expertise in frontend development and full-stack web applications. Experienced in delivering commissioned client projects and developing comprehensive business systems using modern web technologies. Proficient in React.js, JavaScript, and responsive web design with strong background in database management and system architecture. Seeking to leverage technical skills and project experience in a frontend developer role.

## EDUCATION

### Bachelor of Science in Information Technology

Aug 2021 - May 2025

Western Mindanao State University

Graduated: May 28, 2025

- Relevant Coursework: Systems Administration and Maintenance, Capstone Project and Research, Software Engineering, Web Systems and Technologies

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript, Python, PHP, C++, SQL

**Frontend Technologies:** React.js, Next.js, HTML5, CSS3, Tailwind CSS

**Backend Technologies:** Node.js, Python, PHP, Django, Supabase edge functions

**Databases:** MySQL, MongoDB, Supabase, Postgres, Firebase, Mongoddb

**Tools & Technologies:** Git, Docker, Figma, WebSocket, JSON Server, REST API

## PROJECTS

### SmartStoreManager - Decision Support System | Capstone Project

PHP, MySQL, HTML5, CSS3

- Developed decision support system for small business owners with financial management and predictive analytics
- Designed database architecture and implemented data visualization dashboard
- Created user-friendly interface for business reporting and decision-making tools
- Managed complete development lifecycle from requirements analysis to deployment

### CSSPE Information Sharing and Inventory System | Software Engineering Project

PHP, Tailwind CSS, MySQL, HTML5

- Built comprehensive information sharing and inventory management system
- Implemented real-time inventory tracking with automated low-stock alerts
- Developed user authentication system with role-based access control
- Designed responsive interface optimized for multiple device types

### Pokemon Interactive Web Application | Commissioned Project

React.js, WebSocket, Tailwind CSS, JSON Server

- Created real-time interactive Pokemon application with live data synchronization
- Implemented WebSocket technology for seamless real-time communication
- Developed responsive user interface with smooth animations and interactions
- Integrated JSON Server for efficient API data management

### Client Portfolio Websites | Commissioned Projects

React.js, Tailwind CSS

- Designed and developed multiple responsive portfolio websites for various clients
- Implemented modern UI/UX design principles with performance optimization
- Created custom designs reflecting each client's unique brand identity
- Delivered projects on time meeting all client specifications and requirements

## ADDITIONAL QUALIFICATIONS

### Athletic Achievements

Archery Competitor & Coach | 8 years competitive experience, 4 years coaching

- Bronze Medalist - Under 21 Recurved Bow Mixed Team, ASEAN Youth Archery Championship, Cebu City (2023)
- International competition experience demonstrating precision, focus, and performance under pressure
- 4 years of coaching experience developing training programs and mentoring athletes
- Team collaboration and leadership skills through team competitions

Languages & Key Strengths

Languages: English (Fluent), Filipino (Native), Chavacano (Native), Bisaya (Native)

Key Strengths:

- Proven experience with commissioned client work
- Strong foundation in both frontend and backend development
- Ability to translate business requirements into technical solutions
- Experience with modern development tools and workflows
